Things we don't accept

The following is a policy that reflects our commitment to recycling responsibly. The following list is to help you have a clear understanding of materials that Pacific Coast Recycling is not accepting. Please read this carefully and contact our representative at **(408) 848-6811** if you have any questions.

1. Radioactive materials of any kind
2. Explosive material or explosive residues
3. Ordnance (military ammunition) scrap of any kind, unless approved in advance.
4. Fluorescent lights neon, high intensity or mercury vapor lights
5. Paint cans or other paint containers unless empty and rinsed
6. Hydraulic equipment must have hydraulic hoses removed and cylinders cut open and drained
7. Oils, gasoline, other petroleum products and antifreeze, including hydraulic fluids, gear oils, and grease.
8. Automobile air bags containing sodium azide
9. Asbestos or asbestos containing materials of any kind (such as pipe insulation or surfacing materials)
10. Air conditioning and refrigeration unit containing chlorofluorocarbons or hydrochlorofluorocarbons
11. Tanks, drums, barrels, vessels, and condensers unless triple rinsed and certified-empty prior to dumping

This list is not inclusive; other items not listed may be inappropriate for recycling

Thank you for helping us in our commitment to protecting the environment through responsible recycling.
